EVERGREENS.

Evergreen trees are all shipped with their roots protected in a ball of earth securely wrapped with burlap. This helps to insure successful planting, but also adds to the cost of packing and shipping; but no pains are spared to insure our trees giving you satisfaction. On account of varying sizes and habits of growth in Evergreen trees it is difficult to enumerate and specify all sizes of the many different varieties we carry in stock. Our prices are, therefore, based on sizes best suited for general planting. If larger trees are desired write us for quotations.
